PYMBLE AND THE SURROUNDING AREA

was once a major supplier of timber to the early Sydney colony. The first sawmill was established in the area in 1805 and West Pymble was selectively logged for the most sought after timbers. The attraction of the impressive stands of blackbutt, turpentine, stringybark, ironbark, blue gum and mahogany saw the upper north shore become an important supplier of timber throughout all of Sydney in the years to come.

The Sawmill pays homage to the history of the local area, while maintaining a feeling of warmth in food lovingly prepared and served from fresh produce. We are open 6 days from 11:30am until late. Our wood fired pizzas are available Saturday & Sunday lunch, daily from 3pm and in the evenings.
